## Introduction

Welcome to the 19<sup>th</sup> edition of the NVP Winter Conference on Brain & Cognition! According to tradition, the conference takes place in Hotel Zuiderduin in Egmond aan Zee, close to the sea in the north of the Netherlands. We are happy to present an outstanding program and a conference that once more has grown substantially, due to an overwhelming amount of abstract submissions and registrations from researchers in the Netherlands and abroad.

We hope you will enjoy this conference and we look forward to meeting you!

On behalf of the NVP board, the scientific committee, and the organizing committee,

A handwritten signature in black ink, appearing to read 'P. Hagoort', written over a long, thin horizontal line that extends to the right.

## NVP Code of conduct

During the NVP conference, all participants (including volunteers, organizers, reviewers, speakers, sponsors) are required to agree with this code of conduct. We strongly encourage adopting these principles in other NVP-related activities, and in academic life generally.

### Code of conduct

- NVP members will conduct themselves with the **highest standards of integrity and honesty**. We promote the free exchange of scientific ideas and diversity of thought; treat all colleagues with respect and consideration; communicate openly and thoughtfully; and show respect for a multitude of views and opinions that may be different from our own.
- NVP members maintain a conference **free from discrimination, prejudice, intimidation or harassment**. This includes, but is not limited to:
  - offensive comments related to age, race, religion, creed, color, gender (including transgender/gender identity), sexual orientation, medical condition, physical or intellectual disability, pregnancy, national origin, or ancestry;
  - harassment and intimidation, including any verbal, nonverbal, written or physical conduct designed to threaten, intimidate, or coerce another participant, conference organizers, or staff;
  - physical or verbal abuse of any attendee, speaker, volunteer, exhibitor, staff member, service provider or other meeting participant;
  - disrespectful disruption of presentations and conference activities.
- The NVP Dutch Society for Brain and Cognition will **actively promote a diverse membership**, and support proportional diverse representation in committees and leadership roles.

### Consequences of violating this code of conduct

It is expected that everyone will cooperate to help ensure a safe and inclusive environment for all. NVP encourages all participants to immediately report any incidents (whether against you or against others) of discrimination, harassment, unprofessional conduct, and/or retaliation so that complaints can be quickly and fairly resolved. There will be no retaliation against anyone who brings a complaint or submits an incident report in good faith, or who honestly assists in investigating such a complaint.

The NVP may take action deemed necessary and appropriate. This includes an informal or formal warning to the offender, expulsion from the conference with no refund, barring from participation in future conferences or their organization, reporting the incident to the offender's local institution or funding agencies, or reporting the incident to local authorities or law enforcement.

If you are the subject of unacceptable behavior or have witnessed any such behavior, please notify any NVP board members or members of the diversity committee. During the conference, you can contact the following members of NVP's diversity committee for confidential reporting and advice:

- Linda Drijvers (06 3023 9260)
- Nicolás Sánchez-Fuenzalida (06 1335 2087)
